

Aerolase at Kaya

Advanced Laser
Technology for
Clear, Glowing
Skin

What is Aerolase?

Aerolase is a breakthrough in skin rejuvenation technology, offering a safe, effective, and pain-free laser treatment suitable for all skin tones and types.

Using 650-microsecond technology, Aerolase delivers energy deep into the skin to treat a range of concerns including acne, pigmentation, rosacea, and signs of aging — all without touching the skin or causing any discomfort.

Benefits of Aerolase

- Safe for All Skin Types
- No Downtime, No Discomfort
- Targets Acne, Pigmentation & Signs of Aging
- Stimulates Collagen for Youthful Skin
- Fast, Painless, and Effective

clients with proven satisfaction

Aerolase worked wonders on my pigmentation. I could see results in just two sessions. Thank you Kaya for bringing this to India!

Shreya Mehta

Zero pain, zero downtime, and glowing results. I absolutely love my Aerolase sessions at Kaya!

Riya Talwar

My skin has never looked this healthy. Aerolase cleared my adult acne and gave me my confidence back.
